SANGAM – Brand Identity Guidelines

Version 1.0 - 2026

Sangam: where streams meet

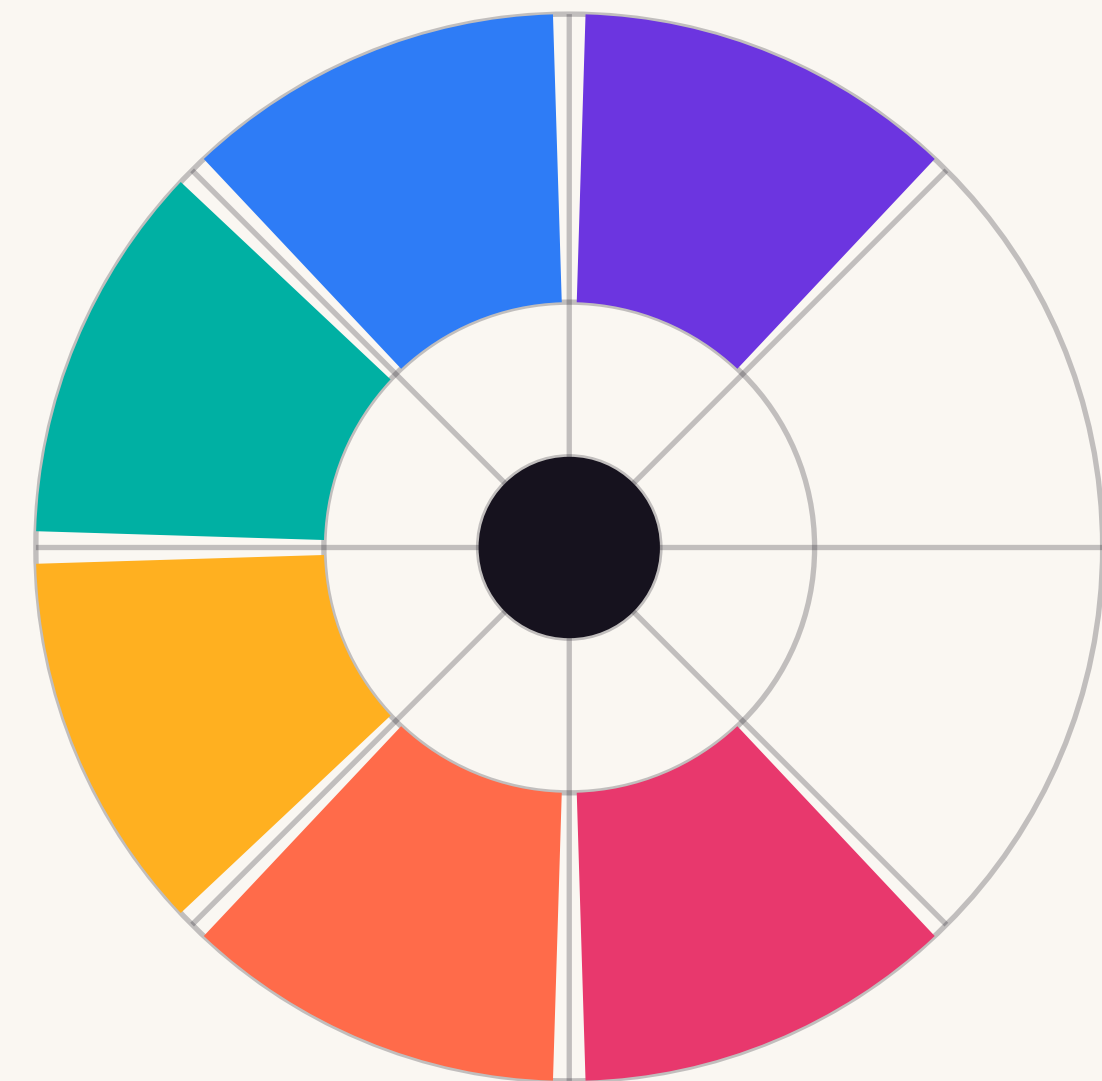

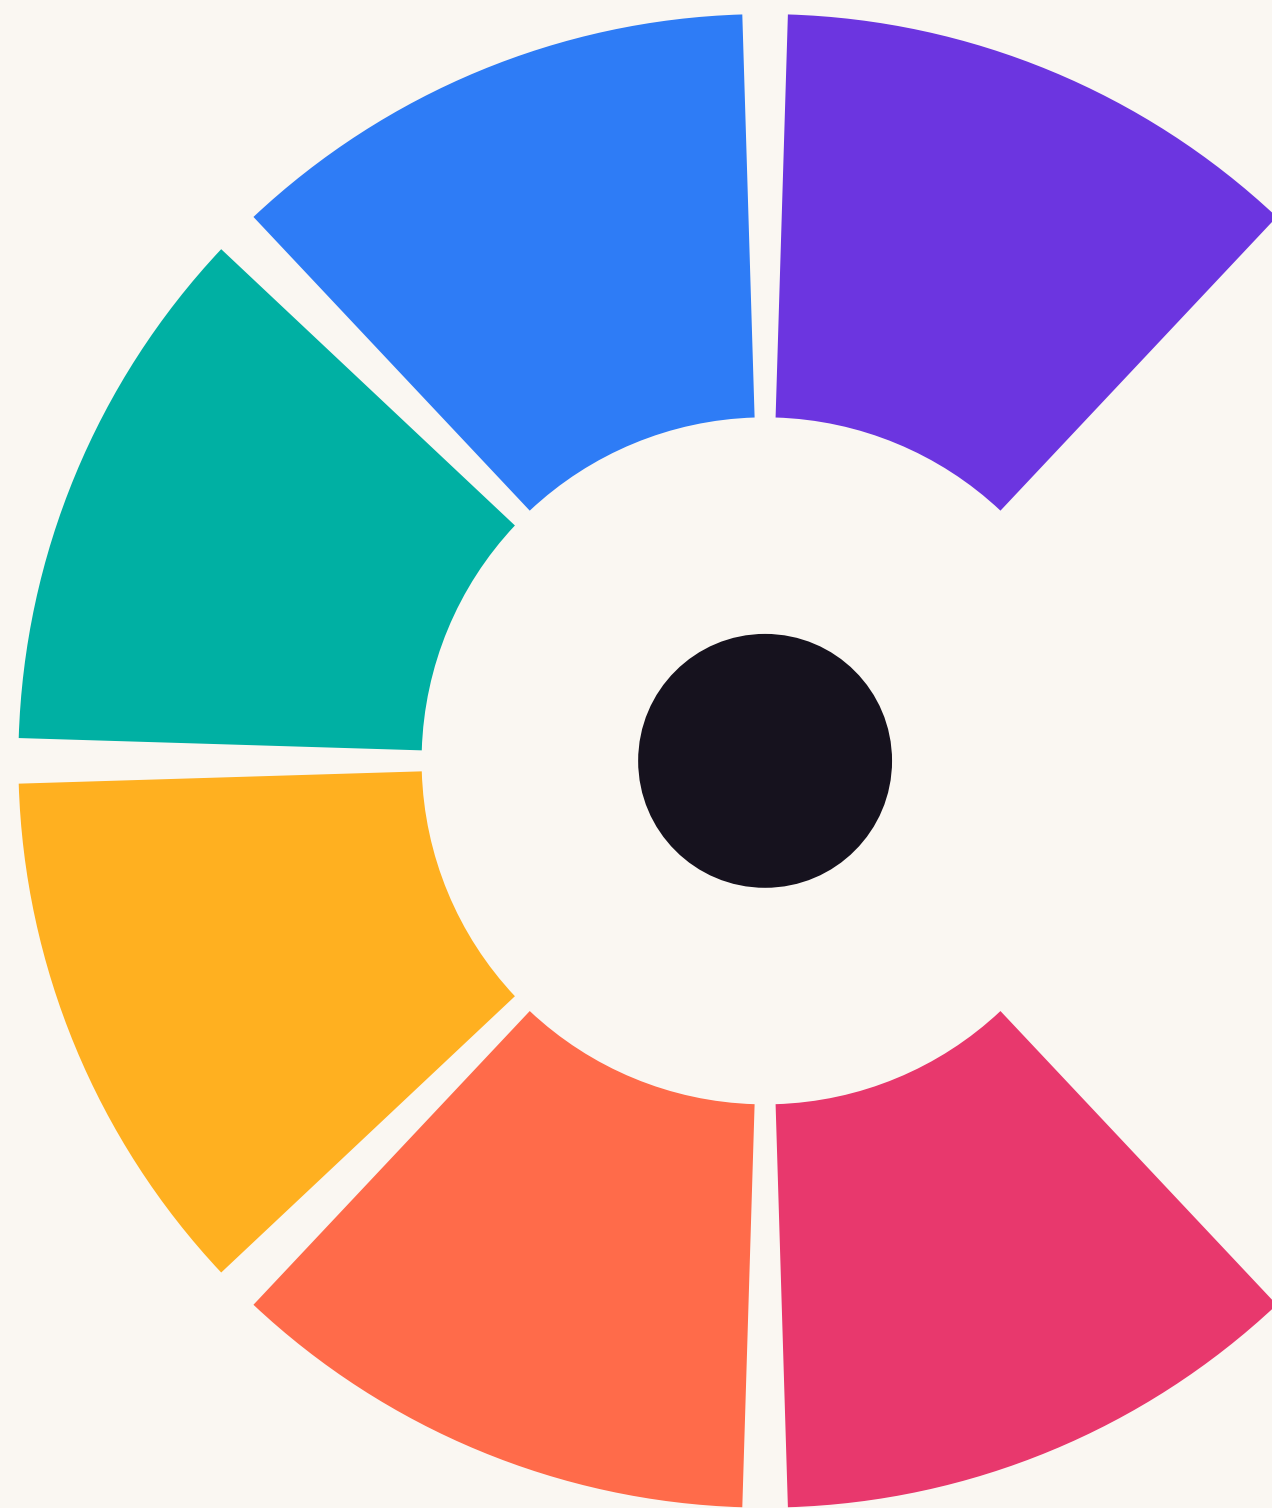

Roorkee grew up along the Ganga Canal - an engineered river that carries many waters in one channel. The Cultural Council does the same thing with creativity: over twenty clubs and sections - dramatists, dancers, musicians, filmmakers, writers, photographers, designers - flow together into one shared stage.

SANGAM (confluence) is that idea made visible. Six streams of color converge around a single nucleus and open toward the audience. The negative space does double duty: the mark reads instantly as a C for Culture, and as a stage aperture - a spotlight about to hit.

BRAND PERSONALITY

- **VIBRANT** Color is the voice of a cultural body - used boldly, never timidly.
- **COLLECTIVE** No single discipline owns the brand; every wedge carries equal weight.
- **CRAFTED** Strict geometry (45-degree wedges, fixed radii) reflects an IIT's precision.
- **FUTURE-READY** Flat, modular and code-drawn - it scales from favicon to festival gate.

Anatomy of the Sangam Mark

Six 45-degree wedges = six creative streams
(stage, movement, sound, frame, word, canvas).
Inner radius 0.46 R, nucleus 0.17 R.
The 90-degree opening faces right - a stage
aperture, and a C for Culture.
